

Top Speed Your Oracle Infrastructure

With Hitachi Vantara Partnership

[FIND OUT MORE BELOW](#)

Turbocharge your database performance and support any application at scale. Move up to a dynamic and reliable converged infrastructure. An automated data center that frees your resources and ensures 100% availability, no matter what's ahead.

Twice the Performance

Support larger databases and speed up complex queries with higher throughput and faster response times.

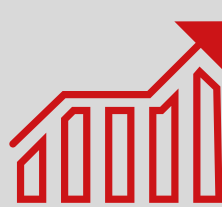

Avoid risking transaction timeouts. Run critical applications with micro-second latency.

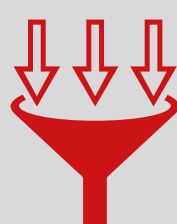

Consistent user-experience with predictable performance even during peak workload.

Half the License Cost

Save upward of 50% by consolidating all your operations across fewer nodes.

Gain new efficiencies using industry leading data reduction with ADR technology.

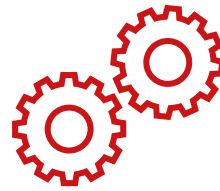

Optimize performance and costs with support from Oracle design and consulting experts.

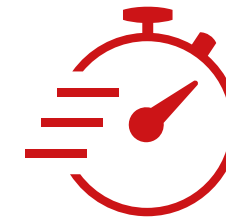

Complete Availability

Deliver the gold standard in uptime with 100% data availability.

Ensure stress-free maintenance with non-disruptive upgrades.

Offer rapid recovery and testing with enterprise-grade snapshots and clones.

Reach These New Standards. Fast.

- Aligned to your finances with options for CapEx, pay-per-use, or subscription.
- Quick to deploy with pre-built, pre-validated integrated infrastructure.
- Single point of service and support for your entire database stack.

We Are Hitachi Vantara

We guide our customers from what's now to what's next by solving their digital challenges. Working alongside each customer, we apply our unmatched industrial and digital capabilities to their data and applications to benefit both business and society.
