

Solution Brief

EverFlex Converged Infrastructure as a Service

Build out infrastructure quickly and easily across edge, core and cloud

Expanding quickly to capture new opportunities is critical in today's dynamic marketplace, but the key is to avoid overcommitment and underutilization. You need fast, easy-to-augment infrastructure that unifies your IT and alleviates resource gaps.

EverFlex Converged Infrastructure as a Service, part of the EverFlex portfolio, provides an efficient approach to building your infrastructure across edge, core and hybrid cloud, while supporting an OPEX purchasing model. Simplifying the complexity of design and deployment, ClaaS delivers ready-to-use bundles of enterprise-grade storage, network and compute. Pre-tested, pre-configured tiers to choose from reduce the risk of overcommitment. Cloud-managed, a console view and complete full management and maintenance support from trusted partners keep up with your business growth while addressing resource gaps to enable your teams to focus on more strategic tasks.

Medium	Bronze	051-201232-01P	8	128 cores, 2048 Gb RAM
	Silver	051-201233-01P	8	256 cores, 4096 Gb RAM
	Gold	051-201234-01P	8	512 cores, 6144 Gb RAM
Flex	Bronze	051-201235-01P	8	128 cores, 2048 Gb RAM
	Silver	051-201236-01P	8	256 cores, 4096 Gb RAM
	Gold	051-201237-01P	8	512 cores 6144 Gb RAM

Support growth and drive competitive advantage with digital transformation from ready-to-use and reliable ClaaS

Organizations wanting to stay competitive and thrive in today's complex business environment need to move quickly and achieve digital transformation without adding complexity and risk. With shrinking budgets and prevalent skills and resource gaps, the challenge needs a supported and easy-to-deploy and implement solution. Bundled cloud-managed storage, networking and compute from ClaaS provide an ideal solution. ClaaS eliminates the need for upfront CAPEX expenses, leaving mundane management and maintenance to trusted experts.

Features

Innovate faster, with rapid deployment, fulfillment and self-service access

- Choose from a robust set of storage, networking and compute.
- Pre-tested, pre-configured and delivered to the location of your choice.
- Multi-cloud functionality.
- Scale up and adjust quickly.

Increased security, performance and availability with Hitachi storage

- Predictable, transparent billing.
- Hitachi Vantara storage and services.
- Specially engineered for small and mid-sized organizations.
- Simply order through the Hitachi Services Manager.

Supports a smooth digital transformation

- Automated management and daily operations, delivered by authorized providers.
- Single dashboard with self-management tools.
- Self-service for partners and subscribers.
- Provides a consistent and secure user experience across edge-core-cloud environments.
