

# Content Platform Learning Path

## HCI Administrator

### Deliver Data Insights with Hitachi Content Intelligence

The Hitachi Content Intelligence Administrator learning path will help you acquire the skills you need to design, configure, and manage workflows with Hitachi Content Intelligence.

Learning Paths are suggested courses to reach a goal. Individual paths may vary according to experience and requirements.

#### Getting Started with Hitachi Vantara Object Storage

TXP6759 | 34 Minutes

Get a free overview of Hitachi Vantara Digital Infrastructure Solutions enabled by Hitachi Content Platform (HCP) and the supporting portfolio of solutions. After briefly reviewing HCP architecture and common use cases, the course provides step-by-step demonstrations on log-in and basic navigation of Hitachi Content Platform. Additional demonstrations guide learners through some of the most common activities performed by the HCP system and storage administrators.

#### Getting Started with Hitachi Content Product Portfolio

TXP6830 | 40 Minutes

This course provides a high-level overview to Hitachi Content Product

Portfolio. You will learn about Hitachi Content Platform (HCP), Hitachi Content Intelligence (HCI), HCP Anywhere, and HCP Gateway. This course is a first step to learn and master your skills with Hitachi Content Product Portfolio.

#### Getting Started with Hitachi Content Intelligence

TXC6788 | 1 Hour

This course provides a high-level overview of Hitachi Content Intelligence concepts, architecture, and features. Several use cases included in this training will enable you to gain quick understanding of Hitachi Content Intelligence. In addition, you will also learn about Hitachi Content Monitor which is a Content Intelligence-based application that monitors Hitachi Content Platform performance in near real time.

#### Introduction to Hitachi Content Intelligence

TSI3440 | 1 Day

This course provides a high level overview of Hitachi Content Intelligence concepts, architecture and features. You will also be introduced to Hitachi Content Monitor which is a Content Intelligence-based application that monitors Hitachi Content Platform performance in near real time. After reviewing critical concepts and features, you will get hands-on practice exploring the Hitachi Content Intelligence management console and creating workflows.

*Completion of this course will earn you a **Hitachi Content Intelligence Introduction** digital badge.*

## Designing Workflows for Hitachi Content Intelligence

TSI3456 | 2 Day

This course provides a high level overview of Hitachi Content Intelligence concepts, architecture and features. You will also be introduced to Hitachi Content Monitor which is a Content Intelligence-based application that monitors Hitachi Content Platform performance in near real time. After reviewing critical concepts and features, you will get hands-on practice exploring the Hitachi Content Intelligence management console and creating workflows.

*Completion of this course will earn you a **Hitachi Content Intelligence Workflows** digital badge.*

## Managing Hitachi Content Intelligence Internal Services

TSI3455 | 3 Days

This course provides information on how to administer Hitachi Content Intelligence. The course explains Hitachi Content Intelligence instances, services, and management of the system. Hands-on lab activities provide the opportunity to manage services using the Content Intelligence Management Admin App console and administration Command Line Interface (CLI).

*Completion of this course will earn you a **Hitachi Content Intelligence Internal Services Management** digital badge.*
