## Supporting Material

TXI3932 Working with Hitachi Ops Center (5 day ILT)
-orTXP3932 Working with Hitachi Ops Center

(online curriculum)

This test is primarily designed for Hitachi Vantara customers who use, administer and operate Hitachi storage systems with Hitachi Ops Center. It is also available to Hitachi Vantara employees and partners. The test will validate that the successful candidate has knowledge of storage system utilization and optimization using Ops Center common services functions and storage management functions. The test also covers analytics, monitoring, automation, data protection, Command Line Interface (CLI) and basic maintenance procedures with Ops Center.

# Audience: Hitachi Vantara Customer, Partner, and Employee Storage Administrators

Storage administrators should have knowledge of all storage-related operations from an end-user perspective. They are responsible for planning, allocating and managing storage, architecting storage layouts, planning connectivity, policy design, performance tuning, instituting disaster-recovery processes, cataloging maintenance and QA testing. Storage administrators should also have knowledge of storage systems, servers, operating systems, file systems, disk drives, Fibre Channel, host bus adapters, interconnect hardware, interoperability of storage networking and virtualization techniques.

Test Objectives	
Section 1	Hitachi Ops Center overview
1.1	Describe the benefits of using Hitachi Ops Center to manage Hitachi storage environments.
1.2	Describe Ops Center login and administration procedures.
1.3	Describe the Hitachi Ops Center system configurations and how they integrate into customer environments.
Section 2	Hitachi storage systems family
2.1	Describe the characteristics of the VSP 5000 series systems.
2.2	Describe the characteristics of the VSP E and VSP One series systems.
Section 3	Hitachi Ops Center Administrator
3.1	Describe the benefits of using Hitachi Ops Center Administrator.
3.2	Describe how to add resources to Hitachi Ops Center Administrator.
3.3	Describe how to provision storage using Hitachi Ops Center Administrator.
Section 4	Hitachi Ops Center Protector
4.1	Describe the benefits of using Ops Center Protector.
4.2	Describe Ops Center Protector components and architecture.

\* Depending on the location and course delivery format, this closed-book, proctored qualification test may also be offered and administered by the instructor at the conclusion of the supporting course.
